Sept 2022 – Mar 2023

Kanpur Nagar, U.P

- Gained hands-on experience by applying development concepts to real-world projects.
- Contributed to various service-based projects, working with a team to deliver high-quality solutions.
- Developed proficiency in technologies such as HTML, CSS, Bootstrap, JavaScript, AJAX, jQuery, PHP, and MySQL to build efficient and user-friendly web applications.
- Focused on integrating both front-end and back-end technologies to create seamless user experiences.

Top Projects

Railway Recruitment Cell Gorakhpur | PHP, Laravel, JavaScript, jQuery, MySQL

- This platform serves as a comprehensive solution for job seekers targeting RRC NER Gorakhpur. Developed using PHP, Laravel, JavaScript, AJAX, jQuery, MySQL, and Bootstrap, the website offers a seamless and secure user experience. It includes a feature-rich Admin Panel for efficient site management and integrates a secure payment gateway for smooth transactions.
- With a strong emphasis on security, the platform implements robust form validations to ensure data integrity and authenticity.

Lodhi Vimukt | PHP, Laravel, JavaScript, jQuery, MySQL

- The Lodhi Vimukt website is a dynamic and interactive platform developed using PHP, Laravel, JavaScript and MySQL.
- Lodhi Vimukt website is an online platform designed to promote books and articles, allowing users to explore, purchase, and support authors while providing key information about the organization's initiatives.
- The backend is powered by PHP, Laravel, and MySQL, ensuring robust data handling, secure payment gateway integration, and reliable storage. The frontend utilizes HTML, CSS, Bootstrap, JavaScript, AJAX, and jQuery to deliver interactive user interface.

National Sugar Institute | PHP, JavaScript, jQuery, MySQL

- I spearhead a project focused on creating an innovative platform that facilitates seamless share trading experiences, efficient management of user data, and streamlined processes for Loan and recurring deposit (RD) installments.
- Developed specifically for **NSI (National Sugar Institute Kanpur)**. For more details, visit my portfolio: sufialihasan.in
